

Batchen Software Version List.

Density range available for standard Batchen Commander series:

| <u>Software</u> | | <u>Density</u> |
|------------------------|---|--|
| • Bat Com V1.61 | ⇒ | Corrected Product Density .510kg/Litre |
| • Bat Com V5.11 | ⇒ | Corrected Product Density .523kg/Litre |
| • Bat Com V5.21 | ⇒ | Corrected Product Density .545kg/Litre |

Note: A 28 pin Emulator (MK97501R-10) must be used in conjunction with the above 2764 EPROM's.

| | | |
|---------------|---|--|
| Bat Com V1.5 | ⇒ | Corrected Product Density .510kg/Litre |
| Bat Com V3.0 | ⇒ | Corrected Product Density .523kg/Litre |
| Bat Com V1.5B | ⇒ | Corrected Product Density .545kg/Litre |

Note: A 24 pin Emulator (MK38P70/02) must be used in conjunction with the above 2732A EPROM's.
