MK3 Console Basic Instructions

Master Reset

*With the power off remove power lead from left hand side of the console.
*Remove the 4 screws & remove the top cover from the console.
*Locate the 3 switches on the main Interface Board labeled "Test 3", "Test 2" & "Test 1".
*From left to right switch them to "DOWN"-"DOWN"-"UP".
*Plug in the console & turn on the power. Note that the opening screen bottom line reads "Warning – Memory may be altered".
*For best results turn power off again for 5 seconds & turn it back on again. Message should still read the same.
*Turn power back off again & switch the 3 "Test" switches to UP"-"UP"–"DOWN".
*Turn power on again & the bottom of the main screen should now read "Memory Self Test – Passed".
*Leave the 3 switches in this position. Turn off power & refit the cover. The MK3 Console has now been fully reset & must be fully reprogrammed using the following information.

Hose Allocation

*Turn the Managers key to "ON"
*Procedure:- Press "Page Zero"
                        Press "57" on the numeric keys
                        Press "Enter Data"
*You should now be on "Page 57" in the Console.
*You will notice that you are at the hose allocation page for PUMP No. 1 (Top right corner)
*For an MPP set up you can allocate up to 4 hoses per pump No.
*Hose No. 1 being the top cents/letre LCD on the MPP display panel.
*For a single hose per pump No. (Pacesetter) just allocate a product for "Hose 1" for each Pump No.
*To proceed to "PUMP No. 2 Press "Page Fwd" & so on.

Product ID's

Super =	1	LPG	=	5
ULP =	2	Kerosine	=	6
PULP =	3	Two Stroke	=	7
Diesel =	4	Product 8	=	8

Price Change

*Turn the Managers key to "ON".
*Determine your current "Price Schedule" on Page 2
*Procedure:- Press "Page Zero"
               Press "2" on the numeric keys
               Press "Enter Data"
*You should now be on "Page 2" in the Console.
*Check your current price schedule (ie = 0001)

*Now press "Page Fwd". You should now be on "Page 3"
*Use the "Step Cursor" button to step the pointer to the desired product in the desired schedule column and enter the new cents/litre. Remember to press "Enter Data" after pressing new price.
*Display will appear like this:

Page 3

	Schedule	No.1	No.2
Super	>	68.9	0.00
Unleaded		66.9	0.00
Unlead Hi		73.9	0.00
Diesel		72.9	0.00

Note: "Schedule 2" would be used if "Page 2" had 0002 entered.
*If further products are used on your site press "Page Fwd" to "Page 4" & repeat this procedure.
*Press " "Normal" to return to main screen

Cumulative Totals

*The site "Cumulative Totals can be found on "Pages 53 & 54"
*Procedure:- Press "Page Zero"
               Press "53" on the numeric keys
               Press "Enter Data"
               You should now be on "Page 53"
               Press "Page Fwd" to go to "Page 54".
               Press "Normal " to retune to main screen
